SOUTH CAROLINA LAW ENFORCEMENT DIVISION

CARROLL A. CAMPBELL, JR.
Governor

ROBERT M. STEWART
Chief

4400 Broad River Road (J.P. Strom Boulevard) • Mail: P.O. Box 21398
Columbia, South Carolina 29221-1398 • Phone: 803/737-9000

June 1, 1991

The 1990 edition of Crime In South Carolina provides a great deal of information useful to law enforcement, government, and the public. I would like to thank those law enforcement professionals at the municipal, county, and state levels, without whose cooperation and assistance this publication would not be possible.

Robert M. Stewart, Chief
State Law Enforcement Division

BACKGROUND OF UNIFORM CRIME REPORTING

NATIONAL UCR PROGRAM

Development of the current nationwide Uniform Crime Reporting (UCR) Program began over fifty years ago. In 1930, crime counts were first requested from local police departments with the Federal Bureau of Investigation (FBI) designated by Congress to collect,compile and analyze the statistics. The Committee on Uniform Crime Records of the International Association of Chiefs of Police (IACP) played a primary role in the origin and development of UCR and today serves in a strong advisory capacity. Standardized offense classification and counting procedures developed by the IACP are the basis for the UCR program. The National Sheriffs' Association (NSA) also serves in an advisory role to the national program. The publication, Crime in the United States, is the annual report published by the FBI dealing with national crime statistics.

In recent years the FBI has actively assisted states in the development of state level UCR programs compatible with the national system.

SOUTH CAROLINA UCR PROGRAM

South Carolina was one of the first states to implement an operational state UCR program. The South Carolina Law Enforcement Division is the agency administering the program. The information collected and the uniform classification under which it is collected are based directly upon the guidelines developed by the IACP and FBI.

Upon initiation of the South Carolina UCR program in July, 1973, SLED, in conjunction with the FBI, held workshops around the state to instruct or refresh the county and city law enforcement agencies on the scope of the program and the mechanics of completing the forms.

Since that time, SLED, along with local law enforcement agencies, has instituted an incident-based records management system which has greatly enhanced and improved the quality of information gathered under the Uniform Crime Reporting Program. Under this new procedure crime data and other information gathered by municipal and county law enforcement agencies are collected and submitted to SLED on a daily, monthly and annual basis. This new system lends itself to a more complete and accurate crime reporting program which, in most instances, alleviates some of the paperwork with which many departments have been burdened. An additional advantage of using standard incident and booking reports has been realized from the uniformity of documents. Standardized reports facilitate the exchange of information between law enforcement agencies within the state. The forms have been included in the report writing classes taught at the South Carolina Criminal Justice Academy.

OBJECTIVES

The fundamental objectives of the South Carolina Uniform Crime Reporting Program are as follows:

To provide law enforcement administrators with criminal statistics for administrative and operational use

To inform the governor, legislature, other governmental officials and the public as to the nature of the crime problem in South Carolina

To determine who commits crimes by age, sex, race and other attributes in order to find the proper focus for crime prevention and enforcement

To provide base data and statistics to help measure the workload and effectiveness of the criminal justice system

To provide base data for research to improve the efficiency, effectiveness and performance of the criminal justice agencies

A particularly important goal of the state UCR program is to return statistical information to the contributors. With implementation of the new incident reporting system, participating police agencies furnish data that are verified and then returned to each jurisdiction in the form of monthly printouts. Contributing agencies then possess detailed information showing crime trends within their jurisdictions. This information enables them to make decisions in budgeting, manpower allocations and the identification of high crime areas.

The UCR information is also forwarded by SLED to the FBI on a monthly basis for inclusion in the FBI's annual publication, Crime in the United States.

REPORTING AND CLASSIFICATION

In reporting offenses to the Uniform Crime Reports program, crimes are classified according to standard definitions (given in a later section of the report) that are used throughout the nation. The UCR definitions are designed to insure that offenses with different titles under the laws of the various states are appropriately classified and counted under the UCR program without regard to findings of courts or juries. The statistics are gathered primarily to assist in identifying areas of concern to law enforcement officers, and not meant to reflect the outcomes of inquests, hearings or trials.

CRIME FACTORS

The presence of crime in our State is a matter of serious concern not only to the law enforcement profession, but to society at large. Historically, the causes and origins of crime have been the subjects of investigation by varied disciplines. Some factors affecting the volume and type of crime occurring from place to place are as follows:

Population density and degree of urbanization with size of locality and its surrounding area

Variations in composition of the population, particularly youth concentration

Stability of population with respect to residents' mobility, commuting patterns, and transient factors.

Modes of transportation and highway system.

Economic conditions, including median income, destitution, and job availability.

Cultural conditions, such as educational, recreational, and religous characteristics.

Climate.

Effective strength of law enforcement agencies.

Administrative, investigative, and reporting emphases of law enforcement.

Policies of other components of the criminal justice system (i.e., prosecutorial, judicial, correctional, and probational).

Attitudes of citizentry toward crime.

Crime reporting practices of citizentry.

Crime in South Carolina gives a statewide view of crime based on statistics contributed by state and local law enforcement agencies. Population size is the only correlate of crime utilized in this publication. While the other factors listed above are of equal concern, no attempt is made to relate them to the data presented. The reader is, therefore, cautioned against comparing statistical data of individual cities, counties, or universities solely on the basis of their population coverage.

SOUTH CAROLINA CRIME INDEX

The tabulation presented in the tables, graphs, and charts in this publication indicate the volume, fluctuation, and distribution of crime in South Carolina on the basis of a crime index. The crime figures are categorized by agency, county and state on the basis of information submitted by police agencies from these areas. The seven offenses comprising the crime index are:

1. Murder
2. Rape
3. Robbery
4. Agg.Assault
5. Breaking or Entering
6. Larceny
7. Motor Veh.Theft

Definitions of these seven offenses can be found elsewhere in this book under their separate headings.

The crime index is used as a basic measure of crime. The crimes were selected for use as an index on the basis of their serious nature, their frequency of occurrence and the reliability of reporting from citizens to law enforcement agencies. The offenses of murder, rape, robbery and aggravated assault are categorized as violent crimes. Offenses of breaking or entering, larceny and motor vehicle theft are classed as nonviolent crimes. The crime index is the total of these offenses that come to the attention of law enforcment agencies.

In reviewing crime index figures, the reader should bear in mind that there is currently no way of determining the total number of crimes committed. The crime index has been established to measure only the instances of crime which come to the attention of law enforcement agencies. It is important to remember in reviewing the tables and graphs in this report that the volume of crime in a given area of municipality is related to the crime factors previously listed in this report.

CRIME RATES

The crime rate indicates the number of Index Crimes per unit of population, generally per 10,000. It should be noted that the rate only takes into consideration the numerical factor of population and does not incorporate any of the other elements which contribute to the amount of crime in a given community. The effect of changes in population on rates should be kept in mind when attempting to make a comparison of crime rates.

The population data used in this report are supplied by the State Data Center, Division of Research and Statistical Services. The figures are based upon the latest projected population counts available from the State Data Center, July 1990.

PERCENT CHANGE

The percent changes in number of offenses and arrests from year to year are shown in a number of tables in the publication. The percent change shown after any 1988 figures reflect a comparison to information reported in 1990. Due to technical problems, the arrest totals for Seneca PD have been included in all state and county totals, but have not been included in calculations for some arrest distribution tables. The total arrest for this agency amounts to approximately six tenths of one percent of the state total.

VIOLENT CRIME

Crimes of violence include murder, rape, robbery and aggravated assault. Violent crimes involve the element of personal confrontation between the victim and the offender and, because of their nature, are generally considered to be more serious than nonviolent crimes.

NONVIOLENT CRIME

For UCR purposes, nonviolent crimes include the offenses of breaking or entering, larceny, and motor vehicle theft. While these offenses generally do not involve personal danger to the victim,the value of property lost in these crimes is many times greater than in violent crimes.

PERCENT ROUNDING

Percentages shown in this publication may not add to 100 due to gross rounding (usually shown to the nearest tenth).

UPDATED DATA

Any data published here concerning figures for prior years supersede those in previous reports.

SOUTH CAROLINA
CRIME CLOCK
1990

one
CRIME INDEX OFFENSE
every 2 minutes
30 seconds

one
VIOLENT CRIME
every 15 minutes
19 seconds

one
MURDER
every 22 hours, 35 minutes

one
FORCIBLE RAPE
every 4 hours, 42 minutes

one
ROBBERY
every hour, 39 minutes

one
AGGRAVATED ASSAULT
every 20 minutes

one
NONVIOLENT CRIME
every 2 minutes
59 seconds

one
BREAKING OR ENTERING
every 11 minutes

one
LARCENY
every 5 minutes

one
MOTOR VEHICLE THEFT
every 39 minutes

The crime clock should be viewed with care. Being the most aggregate representation of UCR data, it is designed to convey the annual reported crime experience by showing the relative frequency of occurrence of the Index Offenses. This mode of display should not be taken to imply a regularity in the commission of the Part I Offenses; rather it represents the annual ratio of crime to fixed time intervals.

1989-1990 INDEX CRIME TRENDS

Offense	1988	% Change	1989	% Change	1990	% Change
Murder	325	+1.9	325	0.0	388	+19.4
Rape	1,492	-0.9	1,649	+10.5	1,866	+13.2

CLEARANCE RATES

For crime reporting purposes, a crime index offense is cleared when a law enforcement agency has identified the offender and there is enough evidence to charge him whether or not he is actually taken into custody. The arrest of one person can clear several crimes or several persons may be arrested in clearing one crime. Clearances are recorded in exceptional circumstances when some element beyond law enforcement control precludes formal charges against the offender.

1989-90 CLEARANCE TRENDS

Offense	Year	Number Of Offenses	Total Cleared	% Cleared	No.Cleared* Under Age 18

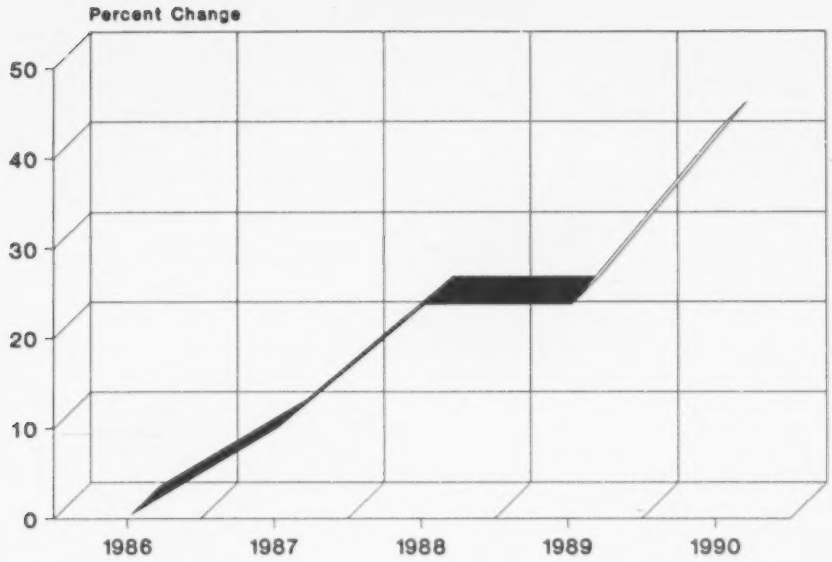
MURDER



Murder is defined as the willful (non-negligent) killing of one human being by another except those cases classified as justifiable homicides. Under the UCR definition, justifiable homicides are specifically limited to the killing of an offender by a police officer in the line of duty or the killing of a felon by a private citizen. This definition does not take into consideration the findings of coroners' juries or other courts. Suicides are not defined as murders under UCR. Attempts to commit murder are classified as aggravated assaults.

1990 SUMMARY

A total of 388 murders was reported in 1990. During this year, the number of murders increased 19.4 percent compared to those reported in 1989.

There were 350 murders cleared by arrest or exceptionally cleared, amounting to a clearance rate of 90.2 percent statewide.

Murders accounted for 1.1 percent of all violent crimes and 0.2 percent of the total crime index. The murder rate in South Carolina was 1.11 per 10,000 persons.

The age group 25-29 accounted for 17.4 percent of persons arrested for murder. Males represented 85.4 percent of the total arrests made for murder.

Firearms were used in 59.8 percent of the murders, cutting instruments in 22.7 percent, hands and feet in 7.2 percent, and other weapons in 10.3 percent.

Victims in the age group 25-29 accounted for 15.1 percent of those killed. Victims killed most frequently were black males between the ages of 30-34.

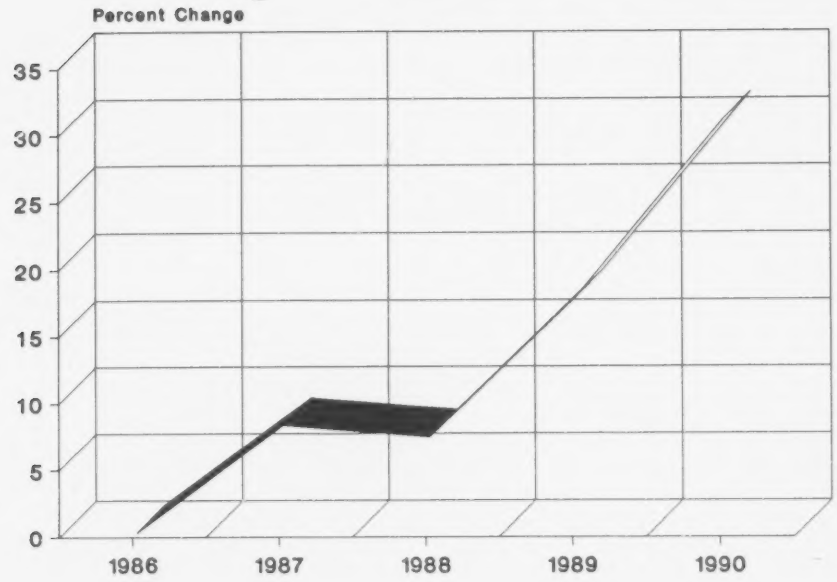
RAPE



Forcible Rape, by UCR definition, is the carnal knowledge of a female through the use or threat of force. Assaults to rape or attempts to commit rape are included in this category. One offense is counted for each victim of rape. Statutory rapes and other types of sexual assaults are not counted as rapes under the UCR program.

1990 SUMMARY

A total of 1,866 rapes was reported in 1990. During this year, rapes increased 13.2 percent compared to those reported in 1989.

There were 1,118 rapes cleared by arrest or exceptionally cleared, amounting to a clearance rate of 59.9 percent statewide.

Rapes accounted for 5.4 percent of all violent crime and 0.9 percent of the total crime index.

The number of rapes committed per 10,000 persons was 5.3 statewide. The rate per 10,000 females was 10.2, based on a state female population of 1,825,500.

Of all persons arrested for rape, 46.5 percent were under the age of 25. With respect to race, 36.4 percent were white, 63.4 percent were black, and 0.3 were other races.

Dangerous weapons were used in 13.2 percent of all rapes.

Victims in the age group 15-19 accounted for 25.1 percent of persons raped. The relationships of victims to offenders within the family represented 12.4 percent of the total, outside the family but known to the victim, 53.7 percent, strangers, 28.6 percent, and unknown relationships, 5.3 percent.

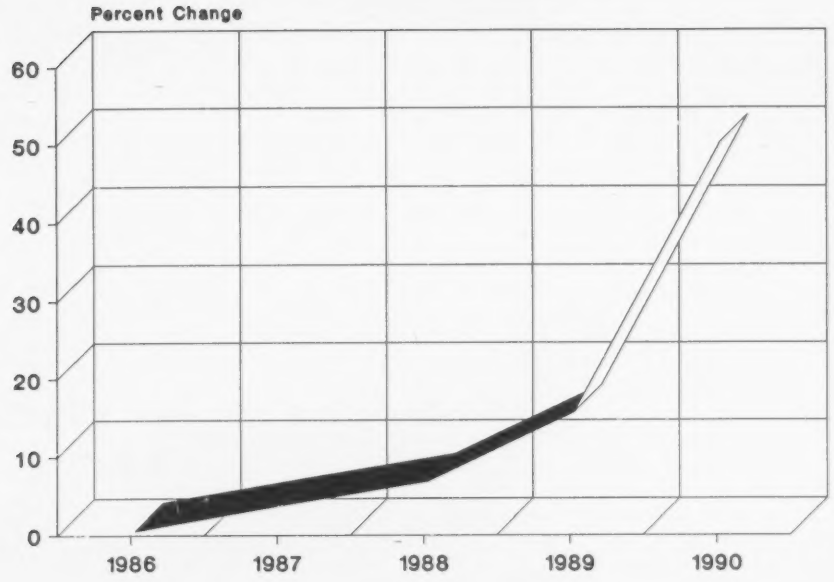
ROBBERY



Robbery, for UCR purposes, is defined as the unlawful taking of the property of another through the use or threat of force. Robbery is a violent crime in which the element of personal confrontation between the victim and offender is present. Attempts to rob are included in the robbery count. Armed robberies, those involving weapons, and strong-arm robberies, those not involving weapons, make up the two major categories. One robbery is counted for each distinct operation, regardless of the number of victims present at the time.

1990 SUMMARY

A total of 5,303 robberies was reported in 1990. During this year, robberies increased 15.1 percent compared to those reported in 1989.

There were 1,883 robberies cleared by arrest or exceptionally cleared, amounting to a clearance rate of 35.5 percent.

Robberies accounted for 15.5 percent of all violent crimes and 2.5 percent of the total crime index.

The robbery rate in South Carolina was 15.2 per 10,000 persons.

The age group 25-29 accounted for 19.5 percent of persons arrested for robbery, followed by 13.1 percent for 30-34 years old. Males represented 93.8 percent of the total arrests made. Of all persons arrested for robbery, 22.1 percent were white, 77.8 percent were black, and 0.1 percent were other races.

Firearms were used in 32.1 percent of all robberies, cutting instruments in 12.3 percent, other weapons in 11.0 percent, hands and feet in 44.6 percent.

The greatest number of robberies reported for any premise type occurred on streets and highways, accounting for 31.0 percent of the total.

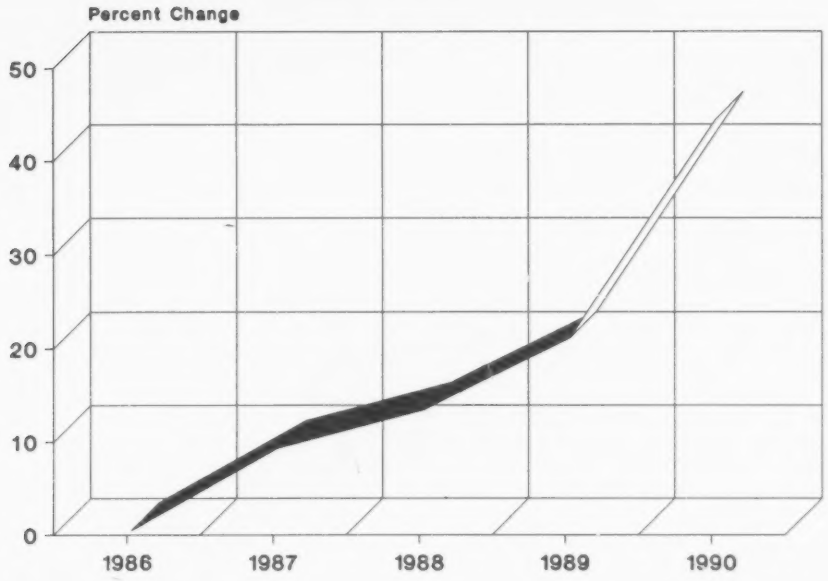
AGGRAVATED ASSAULT



Aggravated Assault, for UCR purposes, is defined as an unlawful attack by one person upon another with the intent of inflicting serious bodily injury. Aggravated Assaults are frequently accomplished through the use or threatened use of dangerous weapons. However, assaults resulting in serious injury from the use of hands or feet are also counted in this category. Attempts to assault are counted here since it is not necessary that injury result whenever a dangerous weapon is employed. Attempts to commit murder are classified under this category. One offense is counted for each victim of aggravated assault.

1990 SUMMARY

A total of 26,750 aggravated assaults was reported in 1990. During this year, aggravated assaults increased 20.6 percent compared to those reported in 1989.

There were 15,938 aggravated assaults cleared by arrest or exceptionally cleared, amounting to a clearance rate of 59.6 percent statewide.

Aggravated assaults accounted for 78.0 percent of all violent crimes and 12.7 percent of the total crime index.

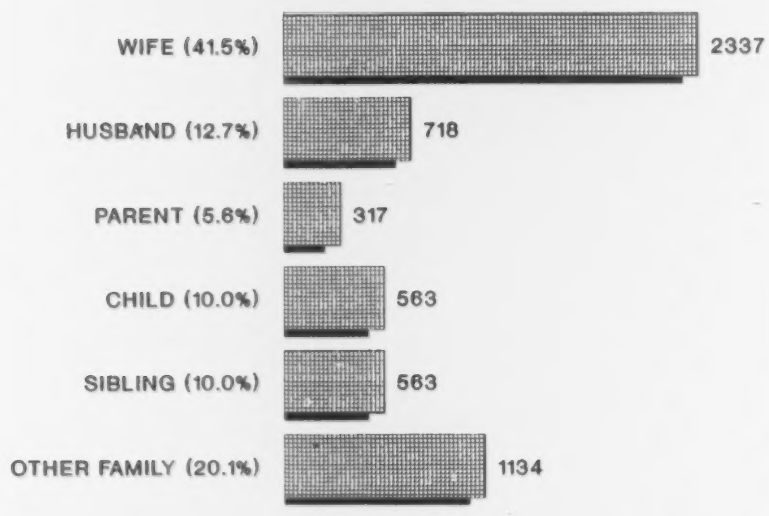
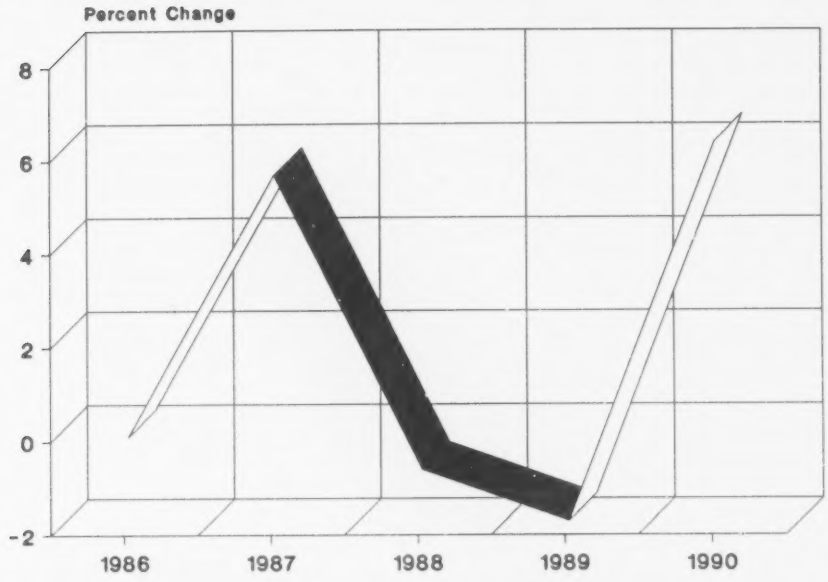
1990 DOMESTIC (AGGRAVATED) ASSAULT VICTIM DISTRIBUTION



BREAKING OR ENTERING



Breaking or Entering, for UCR purposes, is defined as the unlawful entry of a structure with intent to commit a felony or theft. It is not necessary that force be used in gaining entry in order for the offense to be classified as an unlawful entry. Neither is it necessary that property loss occur in an unlawful entry or forcible entry for the crime to be counted in this category. Attempts to unlawfully enter a structure are also counted. One offense is counted for each distinct operation.

1990 SUMMARY

A total of 48,017 breaking or entering offenses was reported in 1990. During this year, breaking or entering offenses decreased 1.8 percent compared to those reported in 1989.

There were 8,109 breaking or entering offenses cleared by arrest or exceptionally cleared, amounting to a clearance rate of 16.9 percent.

Breaking or entering accounted for 27.2 percent of all nonviolent crimes and 22.8 percent of the total crime index.

The age group 25-29 accounted for 14.6 percent of persons arrested for breaking or entering. Males represented 93.8 percent of the total arrests made. Of all persons arrested for this offense, 48.4 percent were white, 51.2 percent were black, and 0.4 percent were other races.

Of the three categories of breaking or entering, forcible entry accounted for 85.5 percent, unlawful entry 6.4 percent, and attempted forcible entry 8.1 percent.

Night operations accounted for 22.1 percent of breaking or entering offenses, daytime operations, 44.2 percent, and 33.7 percent occurred at unknown times.

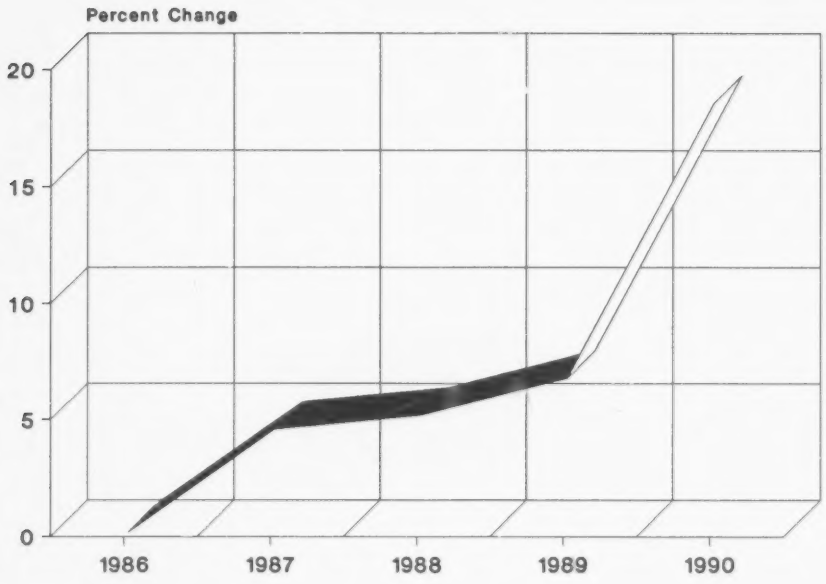
LARCENY



Larceny, for UCR purposes, is defined as the unlawful taking of the property of another without the use of force or fraud. Larceny does not have the element of unlawful entry. This offense category includes such crimes as shoplifting, purse-snatching, stealing items from vehicles and the like. Larceny does not include thefts by fraud,forgery,embezzlement or similar crimes. Motor vehicle thefts fall under a separate category and are not counted as larcenies. Attempts to commit larceny are included in this category. One offense is counted for each distinct operation, regardless of the number of victims.

1990 SUMMARY

A total of 114,925 larcenies was reported in 1990. During this year, larcenies increased 6.6 percent compared to those reported in 1989.

There were 22,981 larcenies cleared by arrest or exceptionally cleared, amounting to a clearance rate of 20.0 percent.

Larcenies accounted for 65.2 percent of all nonviolent crimes and 54.6 percent of the total crime index.

The larceny rate in South Carolina was 329.6 per 10,000 persons.

Persons under the age of 17 accounted for 19.7 percent of those arrested for all categories of larceny. Arrests of males accounted for 69.3 percent of the total.

Thefts of motor vehicle parts, accessories, and contents accounted for 15.7 percent of the larceny category, while shoplifting made up 15.9 percent, thefts of bicycles made up 5.3 percent, and thefts from buildings 7.1 percent.

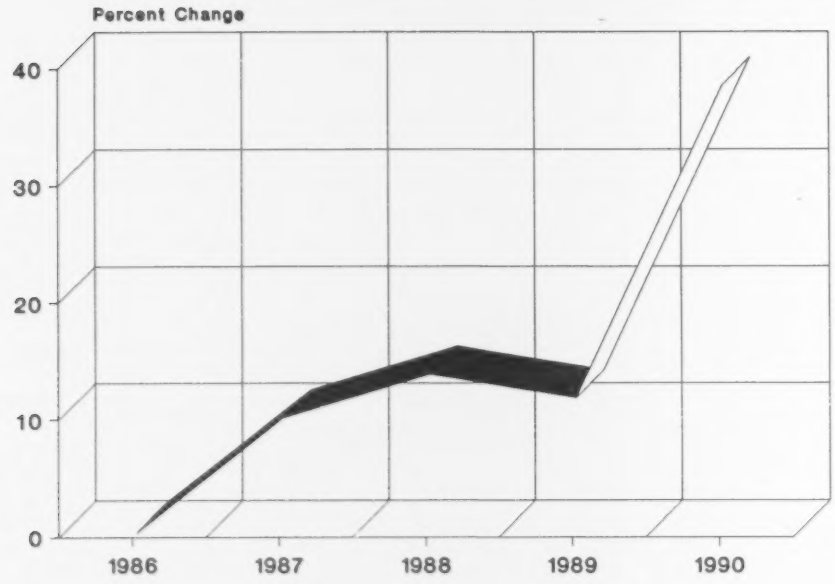
MOTOR VEHICLE THEFT



Motor Vehicle theft, for UCR purposes, is defined as the theft of a self-propelled vehicle that runs on the surface of the land but not on rails. Motor vehicles include automobiles, trucks, motorcycles and the like. This category does not include boats, airplanes or specialized items such as farm equipment, tractors, construction equipment, bulldozers etc. These specialized items are counted under the larceny category. Motor vehicle theft does not include using a vehicle without the owner's consent if prior consent or lawful access has been granted. Obtaining vehicles through fraud or failure to return rented vehicles are not included in this category. Attempts to steal motor vehicles as well as "joyrides" are counted as motor vehicle theft. One offense is counted for each vehicle stolen.

1990 SUMMARY

A total of 13,420 motor vehicle thefts was reported in 1990. During this year, motor vehicle thefts increased 11.5 percent compared to those reported in 1989.

There were 2,954 motor vehicle thefts cleared by arrest or exceptionally cleared, amounting to a clearance rate of 22.0 percent statewide.

Motor vehicle thefts accounted for 7.6 percent of all nonviolent crimes and 6.4 percent of the total crime index.

Of vehicles originally stolen in South Carolina, there were 7,943 recovered during 1990 for a recovery rate of 59.2 percent.

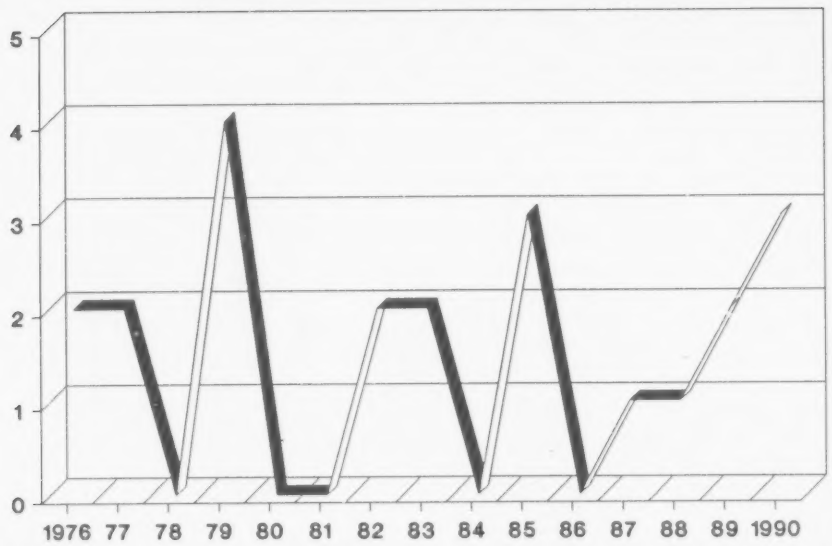
OFFICERS KILLED

S. C. POLICE OFFICERS KILLED BY YEAR



During 1990, three South Carolina police officers were willfully killed in the line of duty.

A twenty-seven year old St. Stephens police officer was killed on Saturday, January 6, 1990, at 10:45 P.M., when he responded to a domestic disturbance call. He was stabbed in the chest with a knife in the kitchen of the subject's house. He had ten months of police experience.

A sixty-two year old Aiken County sheriff's deputy was killed on Sunday, March 6, 1990 when he responded to a disturbance call at a local convenience store. He died as a result of being kicked in the chest by the subject. He had eighteen years of police experience.

A fifty-three year old Beaufort county sheriff's deputy was killed on Tuesday, April 17, 1990 as he escorted a mental patient to see a physician. The officer was shot by the patient in the chest and abdomen with his own service revolver as they were waiting in the hallway outside of the doctor's office. He had five years of police experience.

ARRESTS

The Uniform Crime Reports Program requires a daily reporting of data concerning persons arrested in the state. Records of arrests for criminal acts in both Part I and II crime classes are received from state, county and municipal law enforcement agencies in South Carolina and are classified by offense category and arranged according to age, sex and race of persons arrested. Traffic arrests, except driving under the influence, are not reported. A total of 209,692 arrests for Part I and Part II crimes was reported during 1990, a 7.7 percent increase over 194,644 arrests reported for the year 1989.

A person is counted on the arrest report each time he is arrested or summoned. It should be kept in mind that the volume of arrests may vary from time to time due to differences in local arrest procedures and policies. It should be noted that a person may be arrested several times during a given month for different offenses. This occurs frequently for such crimes as public drunk, disorderly conduct and similar violations. A juvenile is counted as "arrested" when the circumstances are such that, if he or she were an adult, an arrest would be counted, or when law enforcement or other official action is taken beyond a mere interview, warning or admonishment.

When reviewing arrest figures, it should be remembered that arrest counts do not reflect the specific number of persons arrested since, as has been pointed out, one individual may be arrested several times during any given month or year. However, arrest data are useful in measuring the extent of law enforcement activity in a given geographical area, as well as in providing an index for measuring involvement in criminal acts by the age, sex and race of the offenders.

Analysis of reported arrests for the year 1990 indicates that 15.9 percent of arrests during the year were for Part I offenses (murder, manslaughter, forcible rape, robbery, aggravated assault breaking or entering, larceny, and motor vehicle theft). Arrests for larceny comprised the highest percentage of Part I arrests, amounting to 54.2 percent, while arrests for driving under the influence comprised 15.6 percent of Part II arrests. Persons arrested for alcohol and drug violations (drug laws, DUI, liquor laws, drunkenness) accounted for 40.8 percent of all arrests made during the calendar year 1990.

SOUTH CAROLINA
ARREST CLOCK
1990

one
ARREST
every 2 minutes, 30 seconds

one
INDEX CRIME ARREST
every 15 minutes, 46 seconds

one
VIOLENT INDEX CRIME ARREST
every hour, 5 minutes

one
NONVIOLENT INDEX CRIME ARREST
every 20 minutes, 36 seconds

one
PART II CRIME ARREST
every 2 minutes, 59 seconds

The arrest clock should be reviewed with care. Being the most aggregate representative of arrest data, it is designed to convey the annual reported arrest experience by showing the relative frequency of occurrence of all arrests. This mode of display should not be taken to imply a regularity in arrests; rather, it represents the annual ratio of arrests to fixed time intervals.

INDEX CRIME RATES & AGENCY TOTALS

County crime rates per 10,000 population and index crime counts by county and agency are shown in the two tables of this section. The crime rates in the first table are based upon the latest population counts available from the State Data Center, Division of Research and Statistical Services. County population projections are based upon a State population total of 3,487,000 for 1990.

1990 COUNTY CRIME RATES PER 10,000 POPULATION
